Mahdia / Tunis, Tunisia Hadhemi Ben Mansour HadhemiBM

hadhemiBM Portfolio

Profile

Front-End & Full Stack Developer specialized in **React, Next.js**, and **TypeScript**, with experience building **responsive** and high-performance web and mobile applications. Passionate about creating clean user interfaces, scalable architectures, and user-centered digital experiences.

Skills

Web & Mobile Development: HTML, CSS, JavaScript, TypeScript, Bootstrap, ReactJS, MySQL, GraphQL, REST API, Next.js, Node.js, Express.js, Flutter, React Native,NestJS, Python, MongoDB, Tailwind CSS, JavaScript Styles

Version Control: Git, GitHub

Cloud & Deployment: Vercel, OVH

UI/UX Design: Figma, Prototyping, Wireframing, Illustrator

Methodologies: Agile, Scrum

Education

Engineering Degree In Computer Science 2022 – 2024
TEK-UP UNIVERSITY Ariana, Tunisia

Professional Master's in Embedded Systems 2021 – 2024
INSTITUTE OF HIGHER COMPUTER SCIENCE AND MULTIMEDIA Gabes, Tunisia

Bachelor's Degree in Electronics and Communications 2018 – 2021
INSTITUTE OF HIGHER COMPUTER SCIENCE AND MULTIMEDIA Gabes, Tunisia

High School Diploma in Mathematics 2018
HIGH SCHOOL "KSOUR ESSEF" Mahdia, Tunisia

Professional Experience

Front-End Engineer (Mobile & Web) 2025/11 – Present
CLOZINN Support Lac3,Tunisia /Hybrid

• Led the development of **AccessSIV V2**, a complete redesign and evolution of the platform, implementing modern and scalable application features including **Mistral AI integration**, **French vehicle registration API integration**, and a **vehicle procedure simulator**; developed the **administration module** with **role-based access control (RBAC)**, enabling distinct **Admin and Sub-Admin roles**, permissions, and management workflows.

• Designed and developed the **AccesSIV Particulier Platform**, a free web platform that streamlines French administrative procedures via guided document submission, rapid dossier verification (5–15 minutes), automated compliance validation, and intelligent routing to certified processing centers for procedure completion.

• Led the end-to-end front-end development of the LegalTech mobile application **"Actoob"**, from **UI/UX design and high-fidelity prototyping (Figma)** to **production-ready implementation using React Native (Expo)**, including **integration of RESTful APIs, OCR services, and multilingual support** to enhance accessibility for a diverse user base.

• Implemented push notifications in the **Actoob mobile application** to improve user engagement and provide real-time updates on document status, messages, and system alerts using **Expo Notifications / Firebase Cloud Messaging**.

• Engineered and launched the **Actoob marketing website** using **Next.js** and **Tailwind CSS**, delivering a **fully responsive**, **multilingual**, **high-performance**, and **SEO-optimized** experience across all devices.
• Delivered the **"AccesSIV" landing page for a France-based project** using **Next.js**, ensuring **pixel-perfect implementation from Figma designs**, a **fully responsive layout**, and strong **SEO foundations**.
• Optimized rendering strategies (**SSR / SSG / ISR**) in Next.js to balance performance, scalability, and dynamic content delivery.
• **Deployed and managed** applications using **Vercel** and **OVH**, optimizing **load time**, **performance**, and **scalability**.
• **Collaborated cross-functionally** with **design and marketing teams** to align product vision, enhance **SEO strategy**, and improve **user acquisition**.
• Took ownership of **front-end architecture**, **code quality**, and **performance optimization** across multiple projects.
Tools: React Native (Expo), Next.js, Tailwind CSS, Figma, Vercel, OVH, REST APIs, OCR APIs, GitHub

Full Stack Web & Mobile Developer 2024/10 – 2025/10
4ina technologie Manouba, Tunisia
- Led the development and delivery of the company's website, ensuring scalability, performance, and a fully responsive user experience.
- Redesigned and modernized legacy dashboards using **Flutter**, enhancing UI/UX quality and mobile performance.
- Took full ownership of projects from **UI/UX design** (**Figma**) to production deployment, delivering end-to-end digital solutions.
- Collaborated closely with cross-functional teams to translate business needs into efficient and user-centric technical solutions.
- Mentored and supervised interns, providing code reviews, technical guidance, and continuous feedback to ensure successful delivery.
- Implemented best practices in **version control**, code quality, and **agile methodologies** to accelerate development cycles.

Tools :Next.js, Node.js, NestJS, Flutter, Flask, Tailwind CSS, CSS Modules, GitHub, Figma, cPanel, OVH, Vercel

Freelance Front-End Developer 2025/07
Labo Creatif Tunis, Tunisia
- Designed the **complete user interface** in **Figma**, creating a modern and visually engaging brand identity.
- Built the website from scratch based on the design, ensuring **pixel-perfect implementation** and responsiveness.
- Crafted intuitive navigation and layouts to optimize user experience across devices.
- Applied consistent visual language, typography, and color schemes to strengthen brand recognition.

Tools :Next.js, Tailwind CSS, Git, GitHub, Vercel

Freelance Front-End Developer 2025/06
Persista Technology Tunis, Tunisia
- Developed a **modern corporate website** for Persista Technology, translating brand requirements into a clean and professional front-end experience.
- Implemented **responsive layouts** for seamless viewing across devices.
- Optimized performance and accessibility to ensure fast loading and user-friendly navigation.

Tools : Next.js, Tailwind CSS, Node.js, Git, GitHub, Vercel

Freelance Graphic Design 2025/06
Playsoft
- Rebranded the **Playsoft logo**, creating a modern and visually appealing design aligned with the company's brand identity.
- Delivered final assets ready for digital and print use.
- Ensured consistency in **color palette, typography, and visual style**.

Tools: Adobe illustrator

PFE Internship 2024/02 – 2024/06
Pepolls Manouba, Tunisia

- Designed and developed **"BidFlick"**, an e-commerce mobile auction application with **real-time bidding** capabilities.
- Created features for **user authentication**, profile management, and product listing.
- Built an **integrated chat system** for instant communication between bidders during live auctions.
- Implemented **secure payment processing** to handle transactions safely and efficiently.
- Focused on **UI/UX design** to ensure an intuitive and engaging user experience.
- Performed **testing, debugging, and deployment** to deliver a fully functional and stable product.

Tools: React Native, Expo, GraphQL, NestJS, MySQL, Stripe, Socket.IO, Blockchain, Smart Contracts, Figma

Trainer Python : PCAP Certification 2023/11 – 2025/05
TEK-UP UNIVERSITY Ariana, Tunisia

- Delivered **five complete training sessions** preparing participants for the **PCAP – Python Certified Associate Programmer** exam.
- Covered modules including: Python fundamentals, data types & exception handling, functions & methods, modules & packages, object-oriented programming (OOP), and advanced Python concepts.
- Provided **hands-on coding exercises** and guided learners through problem-solving techniques aligned with certification requirements.

Internship 2020/07 – 2020/08
Tunisie Telecom Mahdia, Tunisia
Development of telecommunications solutions and services optimization.

Academic projects

E-commerce Web Application: PARATUN
Next.js, MongoDB, Stripe
Development of an e-commerce platform with payment management and NoSQL database integration.

Mobile Application for transport reservation: Blasti
React Native, Firebase, JavaScript, HTML, CSS
Development of transport booking mobile application with an intuitive and responsive user interface.

Web Application: MeMo Tunisia
MongoDB, Express JS, React JS, NodeJS
Development of a blogging platform with content management and robust backend.

Music Player Mobile Application
Flutter
Development of feature-rich music player application with an intuitive user interface

Activities

Bootcamp Blockchain with "Pepolls" 2023/01 – 2023/06
I enhanced my understanding of blockchain architecture, smart contracts, and DApps. I developed an NFT marketplace to apply these principles in a real-world context, incorporating secure digital transactions and using MetaMask for payment processing. Manouba, Tunisia
